

Mike.L.Wess

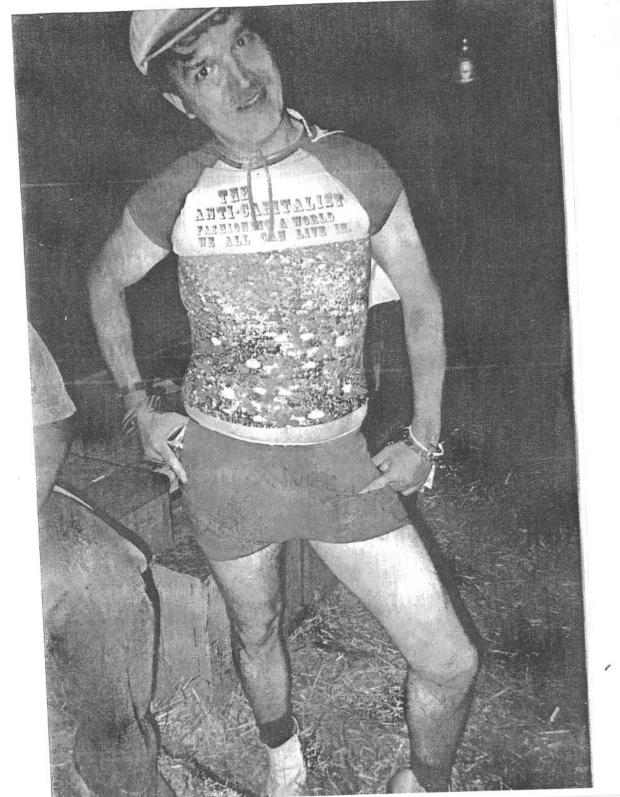

Teday is my twenty seventh birthday. I weke up early 9:00 ecleck. I rushed to the dentist and man by9:30.1'm really into the receptionist assistant at the dentist effice. I have been coming here for about four years but really just two lump visits inm that ammount of time. Kelly the receptionist or assistant is really nice. When we talk on the telephone to scedule appointments, its really hard for me to commit to a time its always to early or to late and some times I just feel weird about the time she suggests. Im sure she has to call me more than regular p patients and when I arrive at the effice Im netably dirty. I very carfully discuss hew we can stay with in the limits of my dental plan making sure to spend little or ne meney. I then ask"de yeu have any free teethpaste". I'm wierd I weuldnt knew it leeking in the mirror, I see myself all the time and I seem fine but in the magmana regular world and there stemping grounds like dentist effices Im wierd. Kelly's nice indusknyhthmianmanduskantantanmannannahn I'm allittle strange and she treats me ma normal. So I like her alet. I'm sitting in the lebby and an assistant comes out of the back and calls me in. I'm here cuz my teeth hurts but it deesnt hurt any mere. The assistant takes seme exrays and decter Feng cemes in and says hi he's really nice. He sits down examines the exrays looks at my teeth for a mement and then pulls eut a piece ef ice and places it en my teeth. "Can yeufeel that?"he says I say "ne" m "its dead". I pep up my eye brews and ned. I'm a tetal mandam prefessional at this every single time I've been to the dentist my entire life my teeth have been fueked up. The assistant says to decter feng mann your ten ecleck has canceld". He leeks down at me and says "we can have you out by twelvem you need a rest canal". Se I breathed out and started to relaxe. They started getting to work and I was laying there and I thought this is great. Its my birthday and Im laying here for a hele two hours and Im going to just sit and think about my life, its perfect. This might seem sarcastic but its net I'm man a little man neuretic , I think all the time. I think when eating, I think when I'm sleeping, I think while I'm awake.mmmm eften I werk mann for days on end mannhampannamman exqueting myself and to the point of feelling sick and dizzy. So put me in a chair on my birthday tell me its a mamina medical emergency and its the perfect time for my dumb brain to step and relaxe. Its out of your control, its how the world be if everything was working right. Its how me animals are, relaxed. Except that makes me think about what kinds of stress animals might have er what about animals in cages at the zeo. But remember Im righting this new Im net in the dentist chair relaxed and shut eff. I'll try and stay fecused en the chair and finish my stery. Dector fengs drilling away and I kept thinking this is what its like to meditate . which with smeke coming out your mouth. I thought leng and hard about sheeting a perne from my perspective in the dentist chair. All the camera angels I could get out manuam stretching my arm taking pictures with my right and left mamm hands. The assistants eyes are beautiful and shes squirting and sucking me with percy devices. Decter fong looks amazing he has a pair of glasses en with little bineculars attached to the middle of them. Hes drilling away and mpane speaking really freely fine for a dentist., saying things like "Oh your going to make me mad at you." and "I've never seen this much calcium him him build up en semeene se young. Its pretty het. I think minmah about all the different faces I could make as he eventaully jerks eff ever me. I could be sucking his dick er just have my teughen out or act like I dent care at all with my eyes realed and an expressionless face. So I imagine this perme being taken with a snapshet camera and theres the mamm issue of getting the money shotm with dector fong. I boiled the epptions down to him saying "I'm going to cum" and then saying "I'm cumming" just mm when I should take the picture or the other option is him sayin "one two three" and I take the picture. Ithink that enes pretty funny. I put myself in decter fengs pesitien and started to imagine if mag either of these would work. Now mhama were an hour into this root canal and I'm trying to relaxe because I can feel myself approching on an ambananana embarrassing situation. I'm getting to excited thinking about this struff so I step for a moment and breath out. THERES A WAR GOING ON AND PEOPLE ARE DYING.

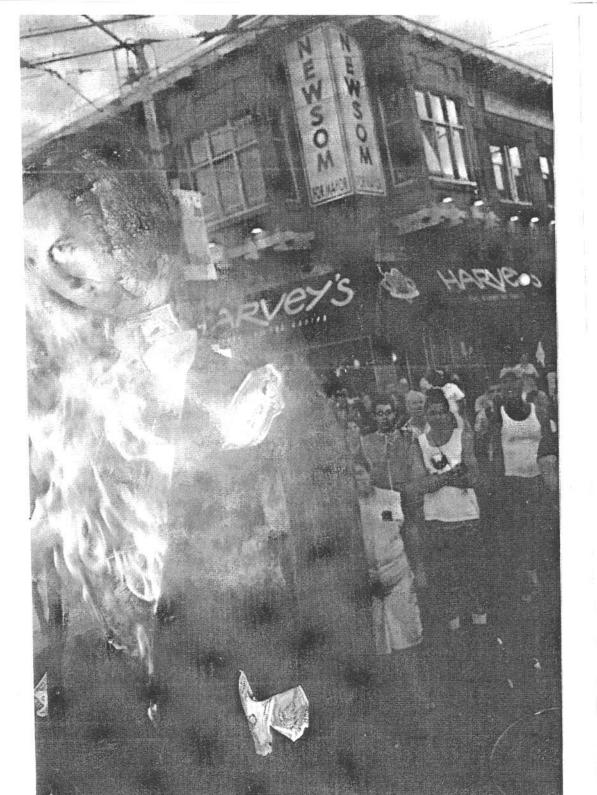

Teday I'm twenty seven.mmm I usually den't use my birthday as my marker for mamm years passing, I like january first. Right new though I'm thinking about the past five years of my life, I'm deciding I wans wrap em up a bit. Its a good time for a marker se why net step and mark it. Sittin here thinking about it its making me feel warm and excited. A begining an end and a new begging, sounds fucking good to me , really it sounds like good culture and since we dent have good culture lookin out for

us we better be lookin out for good culture. "Thats what I'm motherfucking saying!" mDecter feng steps drilling and says "whats that". I shake my head and raise my hand hm letting him know its OK to continue. But now I'm excitted he's going to have to atop soon or just deal with me talkin to myself. Cuz theres alot of things to fix in the world in my head. So a marker I'm not thinking of any thing to public mm or anything like a life marker partys or what ever. I'm just thinking of a personal marker. I'll knew i did it and let seme friends know I did it. I'm geing to put my phetes in a phote album whinch for me has been something I'm aggainst. So closly documenting our history that we have no time for the present. Thats a huge petpieve of mine. I'm going to deal with a handful of things that are big for me. Its time to move into a new work situation and to change up a couple of other things in my life that I'm mam precrastinating on. Quit semething if you wana start something, I want wrete that in a zine along time age. Basically the idea is simple, it goes; you wana stop whatchinm T.V. then step. You don't havta knew what you wana do in sted stare at the wall its hella bering but eventually your body will move tords something man else. It works with drugs and alchele and alot of things. So I get somthings to quit even knew that means I getta stare at the wall or whatever but ill get a good idea about whats next eventually.

THERES A WAR GOING ON AND PEOPLE ARE DYING.

I feel lucky to be excited. I feel lucky to get a root canal and I feel lucky to have my basic necessities in check so that I can think about my life. Doctor to have my basic necessities in check so that I can think about my life. Doctor fengs Tinished. I sit up in the dentist chair with a sense of a new begining. He fengs Tinished. I sit up in the dentist chair with a sense of a new begining. He hands me a cup of water amminum minimum looks deep into my eyes and hands me a cup of water amminimum minimum min
